OL6. SEND HORSE INTO A HORSE TRAILER AT THE TROT OR CANTER AND BRING IT BACK TO YOU.

STAGE 6:

- Student at least 30 feet away.
- Little or no tension in the rope. The belly of the rope may be dragging.
- Horse enters the trailer at the trot as minimum. If it breaks from canter to trot as it reaches the ramp or trailer door this is acceptable.
- Horse stays in trailer until asked out.

PRE STAGE 6:

- Student too close, closer than 30 feet.
- Horse is straining on the end of the rope.
- Horse escapes trailer, does not load.
- Horse stops at trailer entrance and then walks in. Must go in with “velocity” and intention.

With 12' line and 22' line

OL7. PLACE THE 12' LINE ON THE HALTER AND THE 22' LINE AS A RING ROPE AROUND THE HORSE'S FLANKS. PLAY THE CIRCLE GAME WITH SLACK IN THE 12' LINE SO YOU ARE CIRCLING HORSE MAINLY BY THE FLANKS. STOP HORSE BY PULLING ON THE FLANK ROPE.

STAGE 6:

- Horse is undisturbed by flank rope, no tail swishing, raised head, resistance, bucking, etc.
- 12' line (if used) must be slack, no tension.
- Horse stops straight when flank rope slowly pulled tighter. If horse faces in a little this is acceptable.

PRE STAGE 6:

- Horse bucks, strains against flank rope, swishing, raised/tossing head, etc.
- 12' line is shorter than flank rope so horse is responding to halter and line instead.
- Horse speeds up when tension applied to stop.
- Horse runs into student, fearful.

OL8. DRIVE YOUR HORSE FROM ZONE 5 FORWARDS IN A STRAIGHT LINE, THEN BACKWARDS AT LEAST 10 FEET.

STAGE 6:

- Low phases, horse does not open mouth.
- Head is low, may be vertically flexed.
- Straight.
- Use of Horseman's Stick permissible.

PRE STAGE 6:

- High phases used: too much Horseman's Stick for forward, too much rein pressure for backwards.
- Head is high or too low (between knees) trying to avoid pressure.
- Horse opens mouth.
- Horse travels crooked.
- Student uses halter and 22' Line instead of snaffle bridle.

OL9. STAND IN ZONE 3 OR 4 AND CIRCLE YOUR HORSE, SENDING HIM AROUND YOU TO THE RIGHT AT THE TROT.

STAGE 6:

- Student keeps feet still, pivoting or handling rope behind back. Should not move out of a 3' diameter circle.
- Rope is competently handled, does not fall below horse's hocks.

PRE STAGE 6:

- Student walks around instead of staying in their circle.
- Rope falls below horse's hocks and horse is resistant or scared.

LIBERTY

Tools: Round Corral, Horseman's Stick, String/Flag

L1. SEND HORSE AROUND CORRAL TO THE RIGHT AT A TROT.

STAGE 6:

- The send is correctly performed; zone 1 first, horse shifts weight backwards a little and leaves off round, looking in.

PRE STAGE 6:

- The send is sloppy, horse leaves on front end and runs by student, horse does not leave round and weight does not shift back.

RESULT:

STAGE 6 PASS PLEASE RESUBMIT

L2. TRANSITION TO CANTER. SHOW 4 LAPS.

STAGE 6:

- Student asks for trot to canter correctly: direct and support with proper body positioning that creates round and responsive.
- Horse maintains gait without breaking into a trot.
- Student is in complete neutral, relaxed, leaning on stick, for example.

PRE STAGE 6:

- Student uses incorrect methods for asking for transition, example: does not direct, stays in neutral, makes no body change, and support is directed at zone 4 instead of zone 5.
- Phases not used correctly.
- More than phase 2 is required.
- Poor body positioning.

L4. TRANSITION TO TROT, WALK, STOP, AND BACK UP.

STAGE 6:

- Smoothly executed, not more than phase 2 required.
- Student stays in their “circle”.
- Each transition clearly shown for at least several steps.

PRE STAGE 6:

- Phases too high, student has to leave their circle.
- Transitions blurred together and not distinct enough for evaluation.

RESULT:

L5. BRING HORSE TO YOU. PLAY FRIENDLY GAME WITH HORSEMAN’S STICK.

STAGE 6:

- Draw needs to be willing, without hesitation, fairly responsive.
- Horse is confident during the friendly game, relaxed, head may be slightly lowered, keeps feet still.

PRE STAGE 6:

- Horse does not draw well, takes student out of their circle to come in.
- Horse cannot maintain relaxation, doesn’t keep feet still while friendly game is being played.

L8. LEAD HORSE BACKWARDS BY THE TAIL.

STAGE 6:

- Tail only is used for this task (no additional ropes on hocks or halter).
- Horse shows no resistance, but it could be a little slow.
- Tapping horse or the ground with Horseman's Stick is acceptable.

PRE STAGE 6:

- Horse resists, leans against pressure instead of yielding in to it.
- Other physical assistance used, example: rope on hocks, around neck, or pulling on halter. (Horseman's Stick permissible.)
